

## IMPORTANT INFORMATION REGARDING APRIL MATERNITY CLASSES

There is no higher priority than the health of our community. In an effort to avoid potential exposure to COVID-19, all on-site classes have been postponed until further notice. In lieu of this, our Maternity Classes (Childbirth, Breastfeeding, and Baby Basics) for the month of April will be offered as a virtual classes.

- You will be able to view the class material live
- You will have the ability to ask questions to our expert instructors
- These classes will be offered as a gift from Piedmont Atlanta to help in these uncertain times (ie. Free of charge)

Register for these classes by going to <https://www.piedmont.org/maternity-services/classes> or by calling **1-877-527-3712**. If a class is full, please ask to be added to the waitlist. I will be contacting the waitlist to attempt to make every effort to get you the education you need to help you feel more prepared.

Once you are registered, I will be contacting each client registered via email with the invite to join the class. This will be delivered 2 days prior to the scheduled class time. I will also include documents to help you prepare in advance for the class to make the most of the class time.
