

There is no higher priority than the health of our community. In an effort to avoid potential exposure to COVID-19 (novel coronavirus), all on-site classes have been postponed until further notice. In lieu of this, we urge all expectant families to register for FREE access to YoMingo. This web-based tool gives you access to:

- Evidence-based education for labor and birth and breastfeeding
- A direct link to the CDC's updates on coronavirus and pregnancy
- Multiple languages

Register for the program by clicking here (www2.customizedinc.com/childbirtheducation) and following the instructions. Once you have registered, you will receive an email invitation from noreply@yomingo.com where you can create a unique password and login. If you do not receive the email in your inbox, please check your spam folder.

Access to this program will be available through the end of May.

Although this tool is generic, it is a great alternative to on-site classes. Should you have specific questions regarding any of the material, we are here for you. You can always contact me for discussions and/or concerns.
